Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.
2. On line 2 of Claim 13, the phrase "the desired ratio" has been deleted and replaced with the phrase "a desired ratio".

Reasons for Allowance

7. Claims 1-17 and 19-22 are allowed.
8. The following is an examiner's statement of reasons for allowance. The water propulsion unit as claimed is not shown or suggested in the prior art because of the use of a water propulsion unit that is comprised of first and second counter-rotating impellers that are mounted on shafts within a pump housing having a water inlet and an

outlet, where means are provided in order to vary the cross-sectional area of an interior of said pump housing between said impellers.

9. The prior art as disclosed by Brown (US 5,480,330) shows the use of a marine propulsion water pump that is comprised of upstream and downstream impellers, and a pump housing with a water inlet and outlet, where said impellers are mounted on coaxial shafts and are rotatable in opposite directions. Blanchard (US 6,273,768) discloses a water jet propulsion unit having upstream and downstream impellers, where one of said impellers can be arranged to rotate at a different speed from the other impeller. Austin (US 3,601,989) discloses a marine propulsion system having first and second impellers that can be either simultaneously driven by a single engine or separately driven by first and second engines.

Conclusion

10. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
